

AI-POWERED TENDER COMPLIANCE — FOR
BIDDERS

Turn tender compliance from days into hours.

AI that reads your tender document, matches your PQ + Technical evidence, and produces defensible per-clause compliance verdicts — with justifications and citations. Built for GeM, ATC, SOW, and multi-file RFP packs.

10×**faster review**

days become hours

65–80%**Compliant rate**

when PQ has evidence

100%**cited evidence**

every verdict, traceable

THE PROBLEM WE SOLVE

Manually reviewing a 200-page GeM tender for clause-by-clause compliance takes an expert 3–5 working days per bid — and one missed clause disqualifies the entire submission. Under deadline pressure, junior staff make errors that only surface after the loss.

Our AI reads the tender pack (RFP + ATC + SOW + BOQ), matches your PQ.xlsx and Technical evidence against every clause, and returns a defensible Yes / No / Partial verdict with the exact evidence citation in the time it takes to make coffee.

GEM BIDDING

HOW IT WORKS

Four steps. One coffee.

1 Upload Drop your tender + evidence files. PDF, DOCX, XLSX.	2 Extract Docling AI reads every page, tables, and OCR.	3 Match Hybrid search finds the exact supporting evidence.	4 Verdict LLM assigns Compliant / Partial / Non-Compliant, cited.

WHAT'S INSIDE

Everything a bid team needs, in one tool.

Multi-file tender upload

Ingest RFP + ATC + SOW + Special Conditions + BOQ together — clauses merge, deduplicate, and renumber automatically.

Docling AI parsing

IBM Docling handles layout, tables, and OCR. Hindi ↔ English bilingual GeM PDFs supported out of the box.

Cost preview before AI runs

See matched evidence and an estimated LLM cost in USD BEFORE the paid evaluation step — no surprise bills.

Auto-filled PQ Yes / No

Excel report ships with the Compliant? column already populated, color-coded, with the AI justification in the Remarks cell.

On-premise deployment

Runs entirely on the customer's Windows machine. Your tender data never leaves your network.

Single XLSX, many tabs

One deliverable file with Summary, Compliance Assessments, Tender Requirements, and Technical Parameters tabs.
